CITY EXPECTS DAIRY DAY CROWDS

FREE SPRING FESTIVAL IN CAMERON FRI. NIGHT

The climax of almost two month's planning, preparation and practice will be reached Friday night, May 7, when the Cameron schools, assisted by representatives of eight surrounding towns and of thirteen Milam County communities, present their first May Fete since the spring of 1928. Approximately 400 persons will participate.

The performance will be held on the Cameron Athletic Field at 8 p. m. Friday. A public address system has been installed so that all present may hear the program with ease. W. C. Wiese, principal of Yoe High School, is the narrator, and the Cameron Band will furnish the musical background.

The May Fete takes as its theme the events of early American history which culminated in the inauguration of George Washington. The action begins with the ride of Paul Revere,

April 18, 1775, and will include the drill of sixty-four minute men, the calling and meeting of the Second Continental Congress, May 1775, with twenty-six delegates; the authorization of the Declaration of Independence, July 4, 1776; the announcement of the conclusion of the War of Independence; the meeting of the Constitutional Convention protracted by representatives from thirteen Milam County rural schools; the ratification of the constitution from December 7, 1787, to May 29, 1790; inauguration of George Washington as President of the United States, April 30, 1789; an address by Attorney-General William McCraw on democracy; the inaugural ball, featuring folk dances and the May Pole dance by pupils from the Ada Henderson School and the minute couples from the Baptist church, the high school, and Eta Chapter of Beta Sigma Phi.

CHEESE PLANT NOW \$54,000 INDUSTRY

Cameron's newest industry—The Kraft-Phoenix Cheese Corporation—only a little more than a year old, has reached an important stage in its relationship to values as a contributing factor in greater farm income.

Nurtured through a period of loss due to inadequate milk supply the plant at Cameron, to hold open house Saturday when Dairy Day is observed here, is now receiving about ten thousand pounds of milk per day and payments to producers, along with labor benefits, give the industry a high rank in income to the county.

Based upon its present schedule of outlay the plant is worth around \$150 per day or \$4500 per month. The faith of those who visualized its benefits to farm income and to labor

has been justified through an exceedingly encouraging spurt in patronage.

From a struggling start the Kraft-Phoenix Cheese Corporation factory is now a \$54,000 industry and if present plans work out satisfactorily the plant will become one of Cameron's high ranking industrial institutions.

It will be a happy occasion in commercial circles Saturday when the plant manager, B. M. Alexander and officials of the Company, hold open house for the public and participate in the program of the day.

Cows are badly needed and a program to finance them to producers is all that remains to be contributed to insure the success of this industrial adventure in Cameron.

FIREMEN ADOPT PENSION MEASURE

Firemen held their regular monthly meeting on Monday night with 30 members present.

W. A. (Bill) Morrison, city attorney, explained the Fireman's Pension Bill, which was later adopted and a

committee was appointed for the local organization as follows: Oscar Schiller, Raymond Sharpe and John Jeter.

Plans were made for the racing team to attend the Firemen's Convention in Port Arthur, June 8-10. The team is composed of Oscar Schiller, captain; Albert Richter, Zeke Brode, Jerry Mikula, Bert Nicholson and Pete Kikula.

ILL ADVISED ACTION

Opposition to the Anti-Train Length Bill, now pending, was voted by Directors of the Chamber of Commerce on Tuesday night.

It is doubtful if this vote carries with it an, thing more than the sentiment of local Railroad Officials who hold perpetual membership on the board.

There is some doubt that this vote is supported by anything like an appreciable understanding of the provisions of this Bill, even by those who voted against it.

In brief the Bill places restrictions on the number of freight cars to be hauled by one train crew. The limit would be around 70 cars. On some of the main trunk lines trains of much greater length are now run. The Bill is supported by Labor and by Train Workers. It also is regarded as an aid to public safety, since a number of workmen have been killed as a result of accidents due to excess burden of operating these long trains.

Such a law is now in wide use in a number of American States.

Train Men are for it because it would return them to their old jobs. Railroads are against it because it means one train crew may operate two or more trains in one haul.

The Bill, if enacted would have no effect on Cameron. Neither does the present policy of the Railroads add to or detract from the interests of Cameron, although if any effect is forthcoming from this Bill it would tend to help Cameron, because employment is universal in its good import.

Increased employment on rail lines would be a National advancement. To restrict trains to an extent not harmful to Rail investments and at the same time give many their old jobs back, should appeal to the Board of Directors of any Civic Body.

Cameron's three representatives in Austin have each voted for the enactment of this Bill.

In the Policy of Re-Employment is the spirit of Recovery, a fact that seems to be understood everywhere, but in this instance not accorded full recognition by the Board of Directors of Cameron's Chamber of Commerce.

DAIRY COWS IN CAMERON

Here Saturday

A. J. RIDDLE

Southwestern Division Manager for the Kraft-Phoenix Cheese Corporation will be one of the principal speakers on the Dairy Day Program in Cameron Saturday, May 8th.

FIRST CAR LOAD FOR FARMERS

Definitely tangible results were forthcoming here Wednesday when the Kraft-Phoenix Cheese Corporation shipped into the territorial radius of their milk plant in Cameron their first car load of milk cows.

The shipment is one of many to be made to the territory and is the beginning of a well laid course to bring to farms a better type of milker and to increase and stabilize production.

These cows are to be sold to customers of the plant under the easy pay plan now in wide favor throughout the United States where Kraft-Phoenix Company operate milk plants.

Financing a cow program was the essential need of the plant. Under the present production limits the plant, at peak season could hope for only ten thousand pounds daily. Under the plan of the company to make available greater numbers of milkers plant capacity of 25,000 lbs. daily will be reached within a few months and the dairy program for the county will have made great and lasting progress.

To insure a healthy foundation for the future of milk as a basic farm income, the company will apply the most approved business methods to (Turn to Page 2)

\$34,300 IN SUITS AGAINST RAILWAY

Among the cases filed in the district court of Milam County are two against International & Great Northern Railway.

Henry Darden of Rockdale has entered a suit for \$20,000 and cost of suit for personal injuries which he alleges to have received shortly after October 24, 1936, in Anderson county, while acting as substitute foreman as directed by Thompson.

V. O. Wall and B. B. Wall are asking for a judgment of \$14,300 and all cost of suit, to land situated on the Brazos river in Robertson county. They allege that the I. & G. N. railroad, which runs near the Wall land, constructed and erected on the banks of the Brazos river, wing-dikes to divert the natural and normal current of the waters of the Brazos, causing it to impinge on the plaintiff's water-front destroying 75 acres, and there will be an additional loss of 25 acres.

Burke Store Opens With Big Volume in Sales Saturday

Burke's Store, on opening day Saturday, May 1st, sold over 1000 pounds of candy and every other item in proportion.

It was the most successful opening of its kind ever held in Cameron and Mr. Burke is well pleased with this response to the opening. In this issue of The Herald he thanks the people and continues to offer bargains at his new store.

The new Burke Store is now operating in the building formerly used by the C. N. Green store.

Narvie Caperton to Manage Roberts Store

Narvie Caperton is the new manager for the Roberts 5c to \$1.00 store in Cameron.

Formal opening for the new store will be held in Cameron soon, he announced. Some days will be required to arrange the stocks for the opening sale. The store is now open but formal opening will be an event of interest soon.

For 2 years Mr. Caperton has been in Lockhart manager for the Duke & Ayres store. He was born and reared in Cameron and before leaving this city was with the Cameron Duke & Ayres store.

Cameron received .22 inches of rain on Monday night.

VIVIAN WHITES WINS HIGHEST CLASS HONOR

Vivian Whites is the honor graduate of the class of 1937 winning the honors with a high average for her years work. She is the daughter of Mr. and Mrs. T. C. Whites.

Winnelle Kidd, daughter of Mr. and O. L. Kidd, is Salutatorian, sharing honors with Miss Whites, who is Valedictorian.

Listed below are all those pupils of the 11th grade who made an average grade point per subject of 3 or more.

This means that the number of grade points opposite the pupil's name is the average grade point per subject for their last two years in high school.

You will notice that Miss Vivian Whites is the honor graduate of first place and Miss Winnelle Kidd the honor graduate of second place. Each of these two pupils had between an A and A plus average throughout the last two years of their high school work.

CHAMBER COMMERCE COMPLETES PROGRAM

Dairy Day for Milam County will be observed in Cameron on Saturday May 8th.

The program featuring a parade at 1:15 p. m. to inaugurate the afternoon ceremonies, is sponsored by the Chamber of Commerce. Secretary Paden has mailed to every citizen in this section of the state an invitation to be in Cameron on May 8th to enjoy the program. He expected that thousands of people would be here for the day.

Cameron's crack Yoe High Band will be seen in full uniform and on parade in the afternoon.

Future Farm Boys will judge Dairy cattle on exhibition beginning at 9:30 in the morning. Kraft-Phoenix Cheese Corporation will hold open house in the forenoon. Visitors will see the operation of a cheese plant and hear about the advantages of milk production.

The parade in the afternoon starts at 1:15 at the plant of the Kraft-Phoenix Cheese Corporation.

At 2 p. m. a speaking program will be held. Mr. Shepardson of Texas A & M College will be one of the speakers, along with A. J. Riddle of Dennison, representing the Kraft-Phoenix Cheese Corporation.

At 3 p. m. winners in the judging contest will be announced.

The show will be held in City Park if weather is permissible and if not will be held in the gymnasium on the school campus.

A cow will be given away by the Kraft-Phoenix Cheese Corporation. This feature of the day will be an interesting part of the program.

A. M. LANKFORD WILL BE BURIED THURSDAY

Funeral services for A. M. Lankford, 76, will be conducted Thursday morning at 10 o'clock from the Methodist church. Rev. J. Coy Williams, pastor will hold the services. Interment will be made in the Oak Hill cemetery.

Mr. Lankford had been a resident of Cameron and Milam County since 1869. He died on Wednesday morning at 1:15 o'clock at the home of a daughter, Mrs. John S. Perry. He had been ill about four months.

Mr. Lankford was born in Mississippi and came to Milam County with his parents, Mr. and Mrs. M. C. Lankford. He was married in this county to Miss Emma Lee Massey, who preceded him in death in 1925.

One of the first hotels in Cameron was owned and operated by A. M. Lankford. He was also a contractor and carpenter. He was a member of the Methodist church and was a steward for 53 years.

Surviving are a son, L. C. Lankford, Dallas; two daughters, Mrs. John Perry, Cameron; Mrs. C. B. Wilson, Waxahachie; and an adopted son, Milton P. Stevens, California; five grand-children; two brothers, Lee Lankford, Temple; T. M. Lankford, Coleman; and one sister, Mrs. Emma Patterson, Alexandria, La.

Drys Plan Sahara For Milam County

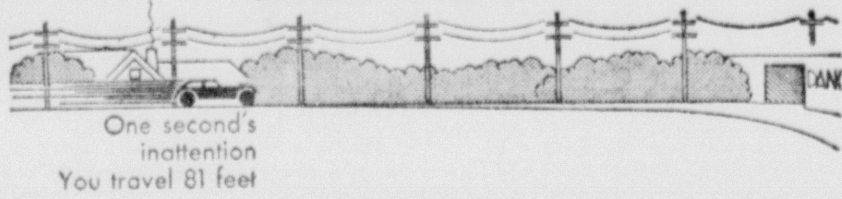

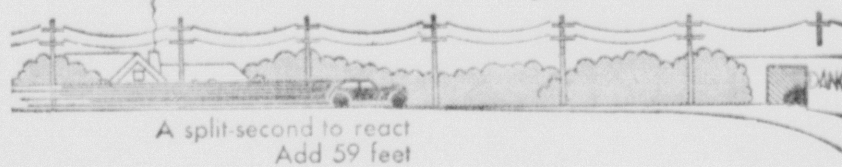

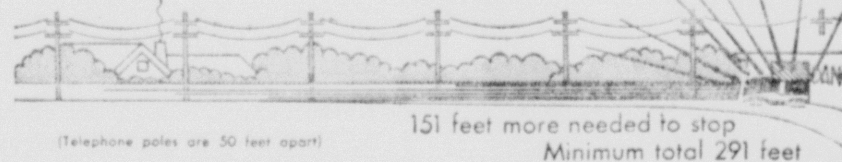

Prohibition forces in Milam county are soon to ask the Commissioners Court to order a county wide poll, the purpose of which is to prohibit the sale of all liquors and beer.

On Saturday an election will be held in Precinct 5. This election was called by the wets and not by the drys as was printed last week. An election held last May in Precinct 5 to legalize beer sales was defeated. The wets are asking the voters to legalize the sale of beer in Precinct 5 which under the old regime was dry.

Mrs. J. R. McQuary of Lilac announced this week that petitions are being circulated to ask for the election.

Milam county, after repeal, held a county wide election. The county went dry but the wrong ballot was used and the election was thrown out. In a subsequent election held in the fall of 1933 the county voted wet.

Under the terms of the repeal amendment all territory that had voted dry by local option before prohibition became effective in 1917, was protected. The legislature made it effective that where a precinct or county is wet a dry election can be called every 30 days. Where it is dry an election can be held only every 12 months unless prohibition is defeated.

"YOU BET YOUR LIFE"WHEN YOU DRIVE
AT HIGH SPEEDSFor instance
at 55**DANGER LOOMS!****JAM ON BRAKES!****CRASH!**

Put this question to ten of your friends who drive:

"When you are going 40 miles an hour on a dry, level road, what is the shortest distance in which you can bring your car to a full stop?"

If they are average, seven will say they can stop in 40 feet or less; two will guess somewhere between 40 and 80 feet; and one will be so uncertain that he won't hazard a guess.

It is surprising to discover how little the average man knows about the first principle of good driving.

You can assure your friends that if they do stop their cars in less than 40 feet from a speed of 40 miles an hour, it will be because they have rammed into a brick wall or a telephone pole! Only an automobile with very good brakes can stop in less than 80 feet from this speed,

and it is impossible for any car to stop in 50 feet on an ordinary road because it will skid farther than that with all four wheels locked.

The pictorial chart above shows the danger of driving at high speeds. At 55 miles per hour a car travels 81 feet in the single second during which the driver's eyes might leave the road to glance at a road sign or to look at an instrument on the dashboard. Once he sees a dangerous situation ahead, the car travels 59 feet during the time it takes him to get his foot from the accelerator to the brakes, he cannot bring the vehicle to a stop in less than 151 feet.

Many drivers pride themselves on how fast they can make their cars go; it is much more important for them to know how fast they can stop.

Cows

(Continued from page 1)

the transaction involved in the sale of cows. Books and records are to be kept and those who buy will be required to meet conditions that insure success. Proper feeding, breeding and care are the essential demands.

The farmer will not increase to his herd and at the same time be able to pay for his cows under an orderly process of deductions at the plant.

Trench silos and other approved feeding and storage facilities are included in the conditions of sale. Strict rules of breeding are laid down with the announced plan to furnish pure bred bulls to improve and to bring under higher approval the foundation stock for the county's future dairy industry.

The shipment of cows is the first substantial gesture yet made in the hoped for improved farm conditions. Other shipments are to be made and the cows absorbed by plant patrons who can qualify under the rules to be announced. The purchase of cows is

also open to other than present plant patrons who are willing to meet conditions necessary.

The Jersey type cow is preferred and all present shipments will include this breed.

I am glad to be able to report that the President's message requesting economy in governmental expenditures is seeming to meet with a surprising amount of support here in Washington. Everyone should realize that for the past four years the government has been on a spending spree very similar to that of most individuals back in 1928 but the government is now about to reach the limit of its credit just as the average citizen did in 1929. It is just as hard for the governmental household to adjust its expenditures to a radically reduced budget as it was for the individual household. It is bound to cause hardship but probably the suffering will be less if we turn toward a balanced budget now than if we refuse to heed the warnings of trouble. Anyway it looks as if Washington was becoming at least slightly economy conscious and I am glad to see it. The President very truly said:

"While I recognize many opportunities to improve social economic conditions through Federal action, I am convinced that the success of our whole program and the permanent security of our people demand that we adjust all expenditures within the limits of my budget estimate."

The two most serious results of the economy program as far as our people are concerned will probably be the effect it will have on W. P. A. work and on the agricultural programs. The President has recommended \$1,500,000,000 for relief for the coming year. Some members believe that we should appropriate as high as four billion and some want to go as low as one billion. I think we should, if at all possible, provide enough money to give work to every one who needs a job and that our work policy should be put on some kind of long time basis where the work done would be worth while rather than to follow the present policy of laying half of our workers off in the dead of winter when they need work most and then when warm weather comes and crops get under way to call for new projects. I believe one and one half billions dollars properly handled will provide employment for the needy but unless it is administered with some degree of judgment it will take four billions and still the people who need help will not get it.

As to the effects on agriculture, I fear they may be more serious. It is true that the House just last Friday passed the Agriculture Departmental Appropriation bill without reduction and I voted not to cut the amount believing that this will probably be the most important appropriation bill we would pass and the one that would do more general good—but there is a general feeling that the tenant home ownership bill is likely to be killed and that probably the next move will result in an early abandonment of the present policy of paying government benefits to farmers for co-operating with the soil conservation and crop control programs. That, instead, a general system of compulsory crop control similar to the old Bankhead Bill will be passed applying to all crops and that instead of paying the

farmer to co-operate, the government will simply punish him for not doing so. Of course, the present Supreme Court has held such an Act unconstitutional but there is a strong element here that would like to try it again, and to go a great deal further. Personally, I hope we can continue with the present system of rewarding the farmer who helps to preserve the soil and to control the total crop production. I feel that it is better for the farmer and the country at large to carry on the policies that are working rather well, instead of scrapping our present conservation policy and substituting a policy of enforced reduction of acreage. I would say make such adjustments in the administration as is needed to work out injustices and there are some injustices but let us follow the general policy. I think these frequent changes in basic policy are bad for all our people and I want to see us reach a period of consolidation of the economic gains we have made rather than to continually change to some new policy.

The appropriation for farm home-ownership may not be brought up if the Democratic leaders feel that the President will veto it. Personally, I think it should yet be passed but if it is not brought out I have in mind that we may be able to work out a plan for government insurance of farm loans made for home purchase, similar to the plan of the Federal Housing Loans. This would secure a large amount of private money for these loans at a low interest rate with a very small Governmental outlay. The plan has worked rather successfully as to city loans and I see no reason why it should not be extended to farm home loans. Anyway I am not willing to give up our efforts to provide farm homes for our tenant families.

DAIRY DAY IN CAMERON

On Saturday, May 8th, Dairy Day will be held in Cameron, the purpose to encourage better farm income.

The American farmer has proven the Dairy Cow a great factor in balancing farm income. Investment in better herds to produce more milk will bring to the farmers of Milam County a year round cash harvest that will in the end mean better farmers and better pay for farm work.

This bank has always encouraged better farm methods.

Accidental Wound Fatal to Farmer

A verdict of accidental death was returned Saturday in the death of J. W. Price, 63, who lived near Buckholts. Inquest was held on Saturday night at the Green Funeral Home in this city by Justice of Peace Womack Brashear.

Mr. Price was found Saturday at 6 p. m. about three hundred yards from his home in a ditch. He was found by his son, Eldon, in a dying condition from a bullet wound. The bullet went through the right hand and right side, it was reported by Justice Brashear.

It was surmised that Mr. Price, who had been squirrel hunting, used his Winchester pump gun to assist himself in climbing up the side of the bridge and it was accidentally discharged.

Funeral services were held for Mr. Price Sunday afternoon at Walkers Creek with interment in Walkers Creek Cemetery.

CARD OF THANKS

We want each one of our neighbors and friends who came to our assistance during our recent great sorrow in the death of our beloved husband and father, to know that we deeply appreciate their kindness. Each word of sympathy and each act of kindness we will remember with abiding appreciation. We thank those who gave flowers and all who in any way assisted us.

CAMERON BOYS WIN IN JUDGING TESTS

By scoring 923 points in the judging of horses and mules the Cameron livestock judging team placed first in that division in recent State contests held at A & M College, according to announcements just received. Von Hickman, with 3rd high individual score, and Elvis Lott, with 5th high individual score, were each awarded medals of bronze. Kinnard Griffin was third member of the Cameron team. In beef cattle judging the team ranked 27th, and in hog judging they placed 14th. There were 114 teams in the contest.

Dana Monroe, with a perfect score of 300 points, tied for high individual honors in the judging of hays. The team ranked 24th among 110 teams. James Brock and Lyle McDermott were other members of the crops team.

The Cameron dairy team of Winford Boecker, Milton Griswold and Curtis Griffin placed 23rd in the judging of Jerseys and 18th in the judging of Holsteins. There were 155 teams in the dairy cattle judging contest, the largest number in the history of the contest.

John Lusk who has been with the Central Loan Company in Cameron, has accepted a position as salesman with the Grabein Chevrolet Company.

Mr. Lusk has taken up his duties with the sales staff and will devote his time exclusively to the sale of Chevrolet cars. Mr. Grabein made the announcement late Tuesday that Mr. Lusk had joined his staff.

DEMONSTRATION COUNCIL

At a recent meeting of the Milam County Home Demonstration Council, Mrs. L. L. Bradley of Rockdale resigned as secretary and Mrs. S. S. Hickman of Jones Prairie was elected.

The expansion committee of the club recommended that clubs reach non club members by holding one cooking, one canning school and a fall garden campaign and to invite non club members of communities and women from communities not having clubs to all educational events.

The council adopted the recommendation.

Mrs. J. P. Love of the County Health Board made a talk on how the Home Demonstration Clubs could cooperate with the board for better health and living conditions of children.

Mayor and Mrs. Charles C. Smith and daughter, Miss Virginia, and Mrs. Simmie Smith and daughter, Shirley Ann, spent Sunday in Austin.

Mr. and Mrs. E. W. Beran and family of Caldwell, spent Sunday in Cameron in the home of Mr. and Mrs. Frank Polansky. They had not visited Cameron in several months. Mrs. Beran is a sister of Mr. Polansky.

VOTE FOR PROHIBITION

To please God we must do His will. Jesus said not all that saith to me, "Lord, Lord shall enter into the kingdom of heaven but he that doeth the will of my Father which is in heaven," and again He said He that is not with me is against me.

Do we think that when we vote for saloons or will not vote to prevent them that we are walking with Jesus or doing God's will? We need rain, some times we say that rain follows people. God's word says so much about rain. In several places it tells us "That if people would turn from their wicked ways and serve Him or hearken unto His voice" He would send the rain in due season, and would heal the land. Maybe God thinks Milam county people don't need any rain that it is wet enough.

We hope enough will go to the polls next Saturday in Beat five to make it dry. Yet we hope a good rain will follow us and beat five will be wet when we awake Sunday morning.

We all remember on December the fifth 1935 we Pros won by 196 votes. The weather had been dry, but it began to rain in the late afternoon, and the next morning Milam county was wet, yet dry.

Once upon a time eleven men went picnicking down on the river. While they were eating their lunch an argument arose. Four of them got mad at one of the party and said we are going to push you into the river and drown you. They began to push at him. Three of his friends jumped up and tried to prevent it. They tried to get the other three to help, but they kept on eating their lunch. Maybe they thought that the world would be better off without him. Of course the four out numbered the three and it was not long until he was drowned. I am wondering if the lad didn't think that the three men that sat on the bank and looked on wasn't just as guilty as the four that pushed him in the river. I'm wondering what their excuses were for not helping.

On March 28, 1936 we Pros. went in round numbers 1400 strong to meet the Anti 2300 strong, but they outnumbered us so we had to surrender. There were 3300 that stayed at home that day. Some of them were urged to come and help us but they would not. I'm wondering if they all had a good excuse?

Some will say that we need the tax from the saloon. If people would only pay the taxes our master taught. In 1923 there were in Milam county over 8500 polls paid in time to vote. Only a few over 4000 have been paid this year in time to vote. On November 3rd there were 1136 voted for the manufacture of alcohol in the county 1673 voted against it. We think that the people thought that they must vote for Roosevelt that day and while they were there voted for the right like they had been taught. That amendment also carried the state.

The Bible tells us "Woe unto him that giveth his neighbor drink." We would think that we were giving our neighbor drink if we did not vote against saloons. There is a petition being circulated over Milam county to determine whether or not the sale of all liquors shall be prohibited in Milam county. Please sign it and vote later for Prohibition.

Milano Girls Get Praise From Home Community Writer

There is not another community, the size of Milano, that has as many girls who are accomplishing great things.

We have three home girls, who have their degrees, teaching in our public schools: Miss Syreney Renfro, Miss Newman and Miss Taylor.

Miss Lillian Holdiness has completed her Junior year in San Marcos Teachers College and is entering the teaching profession.

Miss Beatrice Walker has had one year's work in business administration in Baylor College, and at present is with Draughan's Business College of Dallas.

Miss Nonnie Mae Renfro, after attending Baylor College one term, changed her profession to the business field. She is in Draughan's Business College, Houston. She is making a wonderful record in her work.

Miss Sarah Hughes is preparing herself for teaching. She is in San Marcos Teachers College.

Misses Emma K. Luce and Mildred Newman completed the beauty course in Austin and are both holding good positions.

Miss Marjorie Elam is a sophomore in Baylor University, Waco. She is doing splendid work and is making a good citizen as she did in Milano school.

Miss Mary Lee Taylor is in training as a nurse in John Sealey Hospital in Galveston.

Miss LaVerne Renfro has made a wonderful record in her high school career in Rockdale. We were proud of her last term when the business men and women of Rockdale voted her their school beauty, but not nearly so proud as we were a few days past when she was presented to the representative of Southwestern Methodist University as one of the two best, most popular, and most common sensible girls in high school. We are expecting great things of her and others of our younger girls who are completing their high school work with her this term.

Less Monthly Discomfort

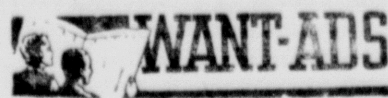

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

Cardui, praised by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.

Milk Cans Bank Accounts Prosperous Towns

People familiar with agricultural conditions of the nation during recent years have found a direct relation between milk cans, bank accounts and prosperous towns. They have found that sections which have augmented general farming with dairying, and its kindred endeavors, have benefitted from the movement.

This is true particularly in sections which, in previous times, have sought to prosper from one-crop systems. Texas has had much sad experience from a one-crop system. In those sections of the State where farmers have accepted a "lift" from dairy cattle, there has been a noticeable improvement in business conditions generally. Much of that improvement has been attributed to regular checks for milk and cream.

Dairying has meant much to Texas. It holds a bright promise for the future—that is when it is built on the proper foundation. It is well that dairying should be recognized for what it has done in recent years. It is fine that a section such as this should recognize the industry in such substantial manner as Cameron's DAIRY WEEK. It is a just tribute well placed.

Texas Power & Light Company

Geo. Newton Makes Comment on Record

Believing as I do, that my constituents and friends should receive a report on the activities of the Texas Legislature and on the work which I have been doing as their representative, I want to take this opportunity of informing them of the work of this session of the Forty-fifth Legislature.

The regular session is now drawing to a close, and we are entering the final hectic days when much of the important legislation will be passed or finally killed.

Uppermost in the minds of many of my constituents, I am sure, is the problem of old age pensions. As many of you know, I have consistently supported a more liberal and fairer interpretation of our old age pension law. No problem before Texas is of more importance than that of taking care of our old people. These people—the pioneers of this generation—have in past years contributed freely and unselfishly to the upbuilding of the great state of Texas, and now, in these years when they need help, the least we can do is to furnish that assistance. It is not charity—it is a reward which they have justly earned by many years of service as good and patriotic citizens.

But we, as legislators, must face the facts frankly and fearlessly. I, for one, do not want to pay old age pensions with hot checks. This we must do unless the Legislature is willing to pass tax bills which will bring in the money necessary to pay pensions.

The state today is faced with the need for more money for pensions. Moreover, our general revenue fund is fifteen million dollars in the red. With returning prosperity, we can and we must balance the budget.

Throughout this session, I have worked toward that end. I have worked for the passage of tax bills—bills based on the theory that those most able to pay should pay the largest part of our tax burden. I shall continue to vote for tax bills based on this theory.

I have fought for the passage of taxes on natural resources. During the past two years every leading natural resource producing company has shown enormous and mounting profits. Millions upon millions of dollars in dividends have been distributed to stockholders in New York, Maine, Pennsylvania, and many other states. The greatest part of these dividends were earned from Texas oil, Texas sulphur, Texas gas, and Texas carbon black. Not only are these companies making expenses, but they are building up a heavy surplus every year. Why should they not be willing to bear their fair part of tax burden in Texas?

I have consistently supported bills which would substantially increase the taxes on oil, gas, sulphur and carbon black. I shall continue to insist that these enormous companies, owned largely by people outside of Texas, and earning their profits from Texas products, shall bear their just portion of the tax burden. By placing fair and reasonable taxes on these companies, we can easily get enough money to pay liberal old age pensions and to balance the general revenue fund.

Another important problem before Texans is the matter of safety on the highways. Thousands upon thousands of people are killed and crippled for life in highway accidents each year.

One of the best ways to increase safety on the highways is to have a strict enforcement of the speed and safety laws. This can be done only by having enough highway patrolmen to adequately enforce the laws.

Early in this session I introduced in the House, and my father, Dr. W. R. Newton, introduced in the Senate, a bill to double the State Highway Patrol. Safety experts are sure that this will improve the enforcement of

highway laws and therefore will reduce the death and accident rate on our highways.

By persistent work my father and I got this bill passed by both houses of the Legislature and signed by Governor Allred. We feel that this is a step forward in Texas.

The work of this session of the Legislature has been very interesting. We have had an enormous number of bills introduced in both houses, and the work has been hard—harder than ever before in the history of the Legislature. Many of the measures in which I have been interested will not get to a final vote this session, but I think that before the final curtain rings down on this session, we will be able to show real, constructive work for the people of Texas.

I want to invite all my constituents to write me at any time when I can be of service. The only way we can intelligently work for your interests is to know what you think of various measures introduced in the Legislature. You sent me to the Legislature to act as your special agent in the state government. To that end, I shall continue to work with all my efforts.

Sincerely yours,
George Mayo Newton.

Stidham Launches Fourth Project in Precinct No. 2.

Commissioner Grady Stidham for Precinct 2 recently began a three mile improvement of the road from Burlington to Clarkson.

Resurfacing with gravel, sixty men are employed on the road. J. Houston of Holland is supervisor for the work which is being done under the Works Progress Administration.

This is the fourth project Mr. Stidham has brought to his Precinct. One of the most important was the gravel surface on the road from Cameron to Elm Creek to connect Precinct 1 near Marak.

When You Need a Laxative

Thousands of men and women know how wise it is to take Black-Draught at the first sign of constipation. They like the refreshing relief it brings. They know its timely use may save them from feeling badly and possibly losing time at work from sickness brought on by constipation.

If you have to take a laxative occasionally, you can rely on

STROKE IS FATAL TO AGED CAMERON MAN

J. L. Moore, 77, died at his home here Friday morning at 8:35 o'clock. He had been ill since Sunday, May 18, at which time he suffered a stroke of paralysis.

Mr. Moore was born and reared in Milam county and was the son of prominent pioneer parents, Mr. and Lewis Moore.

Shortly after his marriage to Miss Callie Ford in this county, they moved to Rosebud, Falls county, where they resided for a number of years. Mr. Moore and his wife moved back to Cameron a little over a year ago.

Surviving are his widow, five daughters: Mrs. Dan Babcock and Mrs. Chester Nimblet, Sacramento, California; Mrs. C. W. Crawford, College Station; Miss Noama Moore, Ennis; Miss LaVerne Moore, Cameron; and two sons, James Leslie Moore, Gonzales; and Charles Moore, Crockett; three sisters, Mrs. L. Storey, Lexington; Mrs. Idella Ethridge, Cameron; Mrs. Velma Quillen, Marlow; two half-sisters, Mrs. Sallie Sanders, Austin; Mrs. Willis Sanders, Knox; two half-brothers, R. L. Moore, Ellis; and Nathan L. Moore, New Jersey.

Mrs. Moore was a member of the Church of Christ. Funeral services were conducted from the Moore residence in the Green addition, Saturday morning at 10 o'clock. Rev. Vernon G. Miles, pastor of the local Baptist church and the pastor of the Church of Christ, Lott, officiated. Interment was made in the Rice cemetery, Milam county.

INSPECTION ROUTES IS COMPLETE HERE

Postmaster J. R. Hayes has completed semi-annual inspection of mail routes.

There are two routes in Cameron with approximately 1800 pieces of mail delivered twice each day on foot. These routes are worked by Paul Laake and Earl Burke, and cover a distance of about 10 miles.

Mr. Hays reports Laake and Burke are covering their routes efficiently and are up to standard on their work. There is a great need for side-walks in certain sections of the city and boxes and houses must be numbered, he said.

Postmaster Hays will make the annual inspection of the rural routes next month. There are three rural routes and a Star route from the Cameron post office. The rural routes are made by Edgar Wilson, George Mode and Archie McLerran. The Star route is made by Albert Schlemmer, and does not undergo an inspection, it was stated. Over a thousand families receive mail service on these routes.

Application for an extension on rural Route 2 from the Knipp place to the Clarkson church was denied by the post office department, Mr. Hays announced.

Special Session—When?

(Editor's note: This article is published as a news item and represents the personal views of Mr. Ferguson only.)

The legislature, so Governor Allred says, will be called in special session to consider repeal of horse racing. This statement has already caused much discussion. As it is often rumored that the Governor will run a third term, the important thing the people would be interested to know is: When will he call the special session?

The lawyers very often contend that time is the essence of contracts. Just when the Governor is to call the horse race session might have a diversified effect on a candidate for Governor—yea, it might have an interesting effect on the chance of the repeal of horse racing by the legislature now about to close.

If the Governor will now tell the legislature, (emphasis on the now,) that if repeal of racing is not considered he will at once reconvene the legislature to consider repeal, then it would be the duty of the Senate to at once take up racing repeal now, and thereby save the taxpayers the expense of a special session to consider a matter which the Senate can dispose of in two hours.

The Governor can clarify his position very much, and do much to speed up the settlement of a much discussed question. If the Governor means that he will call the racing session next fall or next year, then his declaration is of little moment and it might create the idea in the minds of his friends that he has become wearied in well doing, or that he might change his mind.

But if the Governor should say that he means to call the special session just as soon as the regular session adjourns without voting on racing repeal, then he will put the racing crowd on the spot and moreover he will put the legislature—at least the Senate—on the spot, and will have made good his warning that racing repeal must be settled.

Regardless of personal opinion, the people will watch with eager interest the outcome of racing legislation.

Up to date the Governor has played his hand well in the game of political racing and if he does not let his foot slip he will in horse racing parlance come under the wire by several lengths to the good.

In the early part of the session there was some excuse for delay of consideration of the horse racing bill, but now as the session is near the close, every member who votes to suppress consideration of the question will likely incur the wrath of the people back home more than if such members voted for or against repeal.

It would appear that the Governor yet holds the trump card, and if he plays it now, he may cause confusion if not consternation in the minds of those who want to stand in the way of whatever plans or ambitions he may have to succeed himself. This contest between the Senate and the Governor over horse racing is a game for big political stakes, and it

is a fight unto political death, and the people are waiting to see not only which one is the more skillful but which one will display the greatest sincerity of purpose.

CURRY CLUB

Miss Martha Moran was hostess to the Curry Home Demonstration club on Friday, April 23 at her home at 2 o'clock.

There were seven members present. The meeting was called to order by the president Mrs. Leslie Boatright, the roll was called by the secretary, Miss Ethel Angell. A few minutes were devoted to recreation led by Mrs. Boatright.

After the business of the meeting Mrs. Getorge Leath chairman of program committee had charge. We combined two meetings. The subjects were. What our neighbors are doing, and One Hundred Million Guernia Pigs. These were very interesting programs on Cuba and Puerto Rico given by Mrs. Leath.

Miss Bertha Faye Strange our ex-County agent sent some interesting literature from Hawaii that was very much enjoyed. Mrs. Leath gave an interesting talk on Dangers in Every Day Foods and Drugs. Miss Ethel Angell, Miss Pearl Coward, and Mrs. Tom Turner gave a talk on Skin Deep. Reading Food and Drug Labels was given by Miss Lula Coward.

We are going to combine our next two meetings for May the seventh at two o'clock at the home of Mrs. Geo. Leath, Jr. The subject of the meetings are Legislative Information and World Peace.

At the conclusion of the meeting the hostess served sandwiches, cake and punch.

On May the twenty-first there will be a cooking and canning school given at Curry school house from two to four o'clock. Every one is invited to come and enjoy the evening.

We Have No No. 14658 "Nut Screwers On"—

But We Have Specialized Service Just the Same!

You've heard the story about the man who worked in an auto plant for 22 years. When asked what he did, replied that he tightened nut No. 14658. We haven't developed specialization to that degree but we have developed it to the point where separate mechanics, experts in their fields, take care of your ignition, your transmission and your general servicing!

You pay no more for this extra service but you can be sure of getting an extra good job done on your car. Drive in today and let us look your car over. No obligation, of course!

Tombstone Builds Memorial to Its Tough Old Days

As a memorial to the tough old days in the eighties when Tombstone, Ariz., was the scene of some of the bloodiest gunplay in the history of the Southwest, a concrete coffin has been erected on the main street as a monument to the nameless dead who fell in front of the notorious Bird Cage theater, because they were too slow on the draw. Immortalized through Walter Noble Burns' book, "Tombstone—an Iliad of the Southwest," the town is now a mecca for tourists. The dedication ceremony is shown above.

SHIELD EXPERT HERE

H. M. SHEVAN, widely known expert of Chicago, will personally be at the Driskill Hotel, Austin, Saturday and Sunday only, May 8 and 9 from 9 a. m. to 6 p. m.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increase the circulation, strengthens the weakened parts, thereby closes the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge.

Health-Wrecking Functional

PAINS

Severe functional pains of menstruation, cramping spells and jangled nerves soon rob a woman of her natural, youthful freshness. PAIN lines in a woman's face too often grow into AGE lines!

Thousands of women have found it helpful to take Cardul. They say it seemed to ease their pains and they noticed an increase in their appetites and finally a strengthened resistance to the discomfort of monthly periods.

Try Cardul. Of course if it doesn't help you, see your doctor.

DISTRIBUTION

The Average of intensity is five to one.

Based upon this nationally recognized unit of estimate The Cameron Herald is read by 12,000 people every week.

The average family has five members. In addition The Herald goes to every school in Milam County.

Only three counties in Texas have a greater rural population than Milam. Cameron has a population of 5000 or more. The next largest

community has 2500. Thus it may be seen that more than 30,000 people live in the Rural Districts of Milam County.

Cameron has a larger High School than Taylor, larger than Belton by far, and almost twice as large as any other school in the County.

These plain facts form the back ground of a picture few newspapers may reflect. The Herald is exceedingly proud of this set up. Distribution in fact is basic evidence of the value of advertising investments in these columns.
